## KLAN ENTERS LAKE TRAGEDY CASE

### WHOLESALE RUM DELIVERY MADE NEAR NEW YORK

Rum Fleet of Twenty-Two  
Vessels Bob Up Off  
Sandy Hook.

#### DRY-NAVY INACTIVE

Bootleggers Active While Dry  
Squad is Being  
Re-organized.

(By the Associated Press)

HIGHLANDS, N. J., Jan. 12.—The great fleet of twenty-two vessels which bobbed up yesterday off Sandy Hook while the New York dry squad was being reorganized was still standing off the Amrose channel light ship today, ready for business as usual.

While the prohibition forces were taken to New York, four small boats were captured last night while attempting to land liquor from the mother ships, while a fleet of fifty boats were racing back and forth between the rum carriers and shore.

Although observers ashore estimated that a thousand cases had been landed last night, the rum dealers presumably hailing from the Bahamas had a vast amount to dispose of to bidders putting out from this resort and other places along the coast. Liquor landed last night was reported to have been sent by motor truck to New York, Philadelphia, Washington and other cities.

All varieties of champagne and wine were all offered for sale and keen competition has developed among the skippers and rum ships. As bootleggers run along side in their boats, they scan signs hung over the side of the mother ship and decide from which they will purchase. The signs tell that whiskey of such and such a brand can be had at from \$45 to \$50 a case. Rye was quoted at \$35. Campaigns were higher. The sea began to take on an appearance of a bargain counter.

The visiting flotilla flies the flags of many nations and the crews are of all races. The vessels are loaded to the gunwales with liquor. "I saw 5,000 cases in one pile on one boat," declared a gray haired rum runner, who brought his boat safely past the coast guard and revenue craft last night. "You can get anything you want, cheap too."

Bootlegging circles here display no fear despite the capture of four of their best boats last night, and thousands of cases moved out of town all night by motor truck and passenger car. The last left about seven o'clock this morning in five big motor vans—four thousand cases.

WASHINGTON, Jan. 12.—An immediate report was demanded by prohibition officers here from the New Jersey headquarters concerning dispatches printed in this morning's newspapers described the extensive landing of smuggled liquor on the New Jersey coast.

### Two Arrested by Sheriff Deputies in Thursday Raids

Activities again took a boom in the county sheriff's office when, two arrests were reported for last night and today.

Both victims of the vigilance of county officers were placed in the county jail. Eli Clarke, negro, was arrested on complaint charged with rape. He was placed in the county jail late yesterday evening and will answer to charges in preliminary hearing Friday afternoon before Justice J. H. Brown.

B. W. Ragsdale was arrested by resident deputies at Roff and brought to the county jail here on charges of assault. Ragsdale is alleged to have shown extreme cruelty to members of his family.

### CONTENTIONS OF VIRGINIA SHIP BUILDERS UPHELD

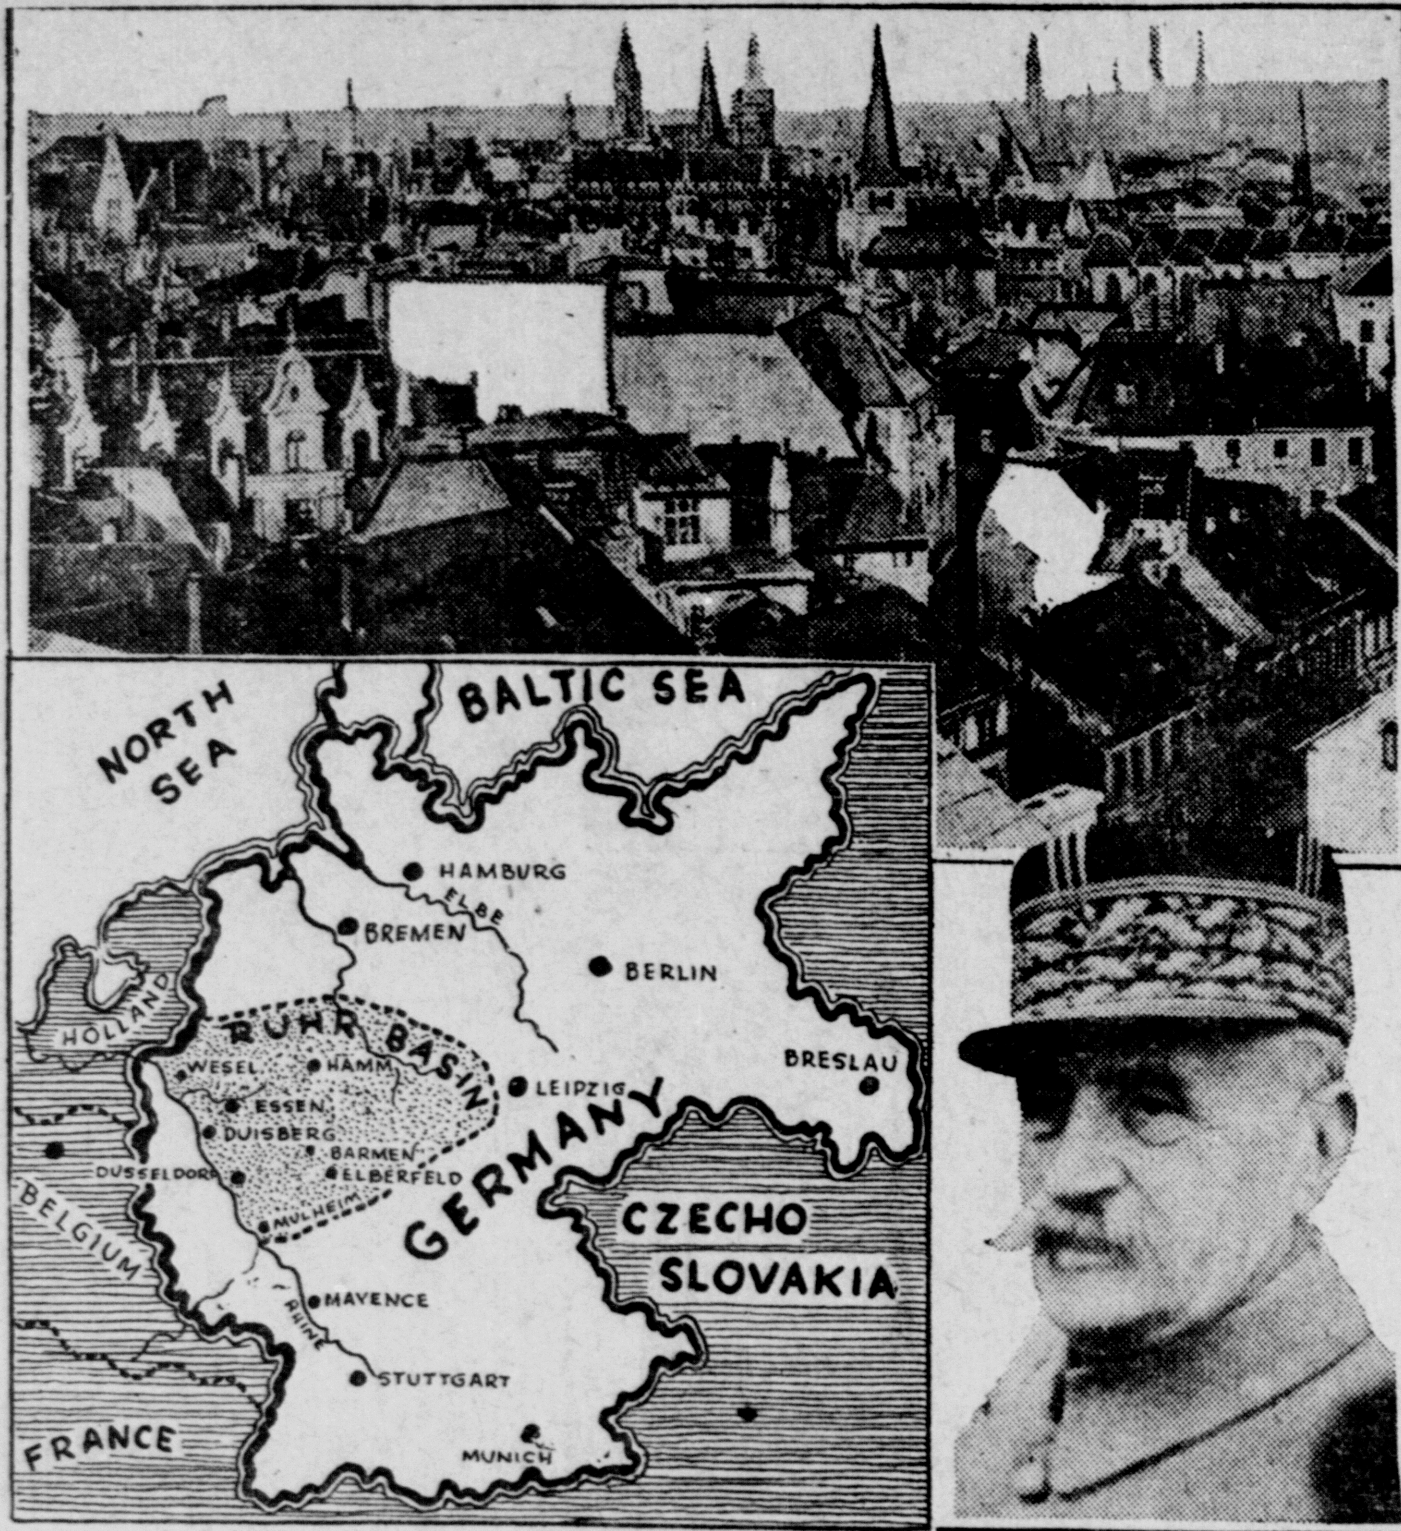

(By the Associated Press)

WASHINGTON, Jan. 12.—Contention of the federal government in its legal battle with the Virginia Ship Building corporation, headed by Charles W. Morse, involving claims and counter claims of several million dollars as the result of a seizure of nine corporation ships by the shipping board were upheld in a decision handed down by Judge Waddill in the federal district court here.

## Germans Offer Protest to Invasion

Essen—The Rich Ruhr Valley—and the Invader

Above, birdseye view of Essen. Below, map showing location and approximate area of Ruhr valley, and Marshal Fock.

### Quiet Claims Ruhr District After Influx

(By the Associated Press)

ESSEN, Jan. 12.—All the factories will close next Monday morning from 11:00 to 11:15 o'clock in protest against the French occupation. The committee directing the demonstration represents all the political parties.

Railroad traffic will stop for ten minutes at the same hour. The ringing of church bells and blowing of whistles will voice their indignation.

COPENHAGEN, Jan. 12.—An Exchange Telegraph dispatch from Memel reports that the international high commissioner has proclaimed Memel in a state of seige. The newspaper Memeler Demoprooot says a proclamation signed by members of the "committee for saving little Lithuania" announced that M. Simonaitis, said to be a former Lithuanian minister, had been created president of the Memel territory.

BERLIN, Jan. 12.—The directorate of the German railroad men's union has issued a protest against the French occupation of Essen. The statement urges the workers to remain calm, saying:

"Since we are defenseless we must submit to force in the hope that a protest to the conscience of the world will obtain our aim."

ESSEN, Jan. 12.—General Degout to today issued a proclamation from Dusseldorf establishing a state of seige throughout the newly occupied territory. The German law, it was stipulated, would remain in force.

### PACKERS URGE CHANGE FOR INDUSTRY CONTROL

(By the Associated Press)

WASHINGTON, Jan. 12.—Important changes in the tentative plans for the administration of the packers control act are understood to have been urged by representatives of the big five packers of Chicago at a conference today with officials of the department of agriculture.

Bank officials of some of the Chicago companies together with their counsel were present at the conference and although no one would reveal exactly what was said, there were indications that some of the steps planned by Secretary Wallace as a part of the administration of the new law had met with determined opposition.

Under the law the stock yards administration which is a part of the agricultural department is authorized to compel the keeping of certain detailed accounts by the packing concerns, and it was that feature of the enforcement plans that is expected to come under discussion today. Just what the department proposed to do to carry out the accepted provision never has been announced but it was indicated that the packer representatives were convinced that the tentative enforcement plans overstepped the content of congress.

### CRAZED MAN SLAYS WIFE WITH AX; KILLS SELF

(By the Associated Press)

MUSKOGEE, Jan. 12.—W. N. Graves, 56, crazed by the announcement of his wife that she intended to leave him today, slew her with an ax at their home here this morning and after failing in an attempt to kill his 11-year old son with a butcher knife, cut his own throat and died a few minutes later at a hospital.

"If your love for me is gone from your heart, then there is no other way but this," Graves cried at he buried the ax in the brain of his wife," his son told the police.

### TEXAS GOVERNOR PLEDGES FIGHT ON LAWLESSNESS

(By the Associated Press)

AUSTIN, Tex., Jan. 12.—Three men are killed every day in Texas and liquor smugglers are constantly at work, Governor Pat M. Neff declared today in an address before the joint session of the Texas legislature. He pledged himself to fight the lawless element "with my back to the wall."

Law enforcement is the burning question, "and I will send you in a short time a message regarding law enforcement that will wear whisks," the governor said.

Pennsylvania leads all the states in the number of vocational and agricultural schools.

### MINORITY REPORT BOOMED BY HOUSE

Supporters Waiting for Re-  
advertising for State  
Printing.

(By the Associated Press)

OKLAHOMA CITY, Jan. 12.—Flushed with the victory after the hard battle over the printing contracts, supporters of the minority report in the lower house of the state legislature were waiting today for the committee to re-advertise for bids.

Late yesterday the house rejected the majority report which would have given the contracts to the Oklahoma Leader, a socialist newspaper here, after a hot debate over whether union labor, employed by the Leader should receive preference over a non-union plant, which submitted lower bids. The committee was then instructed to ask for new bids and to consider none unless it was lower than the lowest bids submitted to the eighth Oklahoma legislature.

The senate was in recess today until Monday while its appropriations committee completed consideration of former Governor J. B. A. Robertson's budget recommendations. For the first time in the history of the legislature it is likely that one of the appropriation measures, the departmental bill, would be in the hands of the senate during the third week of the session.

### FRENCH REPUBLIC WINS SUIT FOR REPARATIONS

WASHINGTON, Jan. 12.—The French republic was given an award of "reparation" against the United States railroad administration today by the interstate commerce commission amounting to \$71,462.

The director general of the railroad was ordered to pay that sum to the French agents on or before January 20, on the grounds that illegal demurrage and storage charges were assessed against the French shipments of munitions of war at Wilmington, Delaware, during 1919.

The French agents have a series of complaints against the railroad administration arising out of similar war time transactions, in which it is alleged that it was required to pay over charges.

### Army Appropriation Same

WASHINGTON, Jan. 12.—A standing army of 125,000 enlisted men and 12,000 commissioned officers, the same as authorized last year, is provided for in the army appropriation bill reported today to the house.

### MEMORIAL HALL GOING UP FAST

Foundation Now Nearing Completion; Basement Under Construction.

Concrete walls for the basement floor of the Memorial Convention hall were completed this week and bricklayers have started the long task of finishing the inner walls and ground and second floor walls.

Excellent weather conditions have permitted the work to proceed uninterrupted and contractors say that prospects are that the building will be taking on definite shape within a month.

Three entrances to the basement are provided at the east front, two on the north and one on the south. All the walls are broken with numerous window spaces.

Work today consisted largely of construction of interior walls and buildings of forms for pillars to the ground floor. Brick was being placed on the site for the walls and final work of excavation of the basement floor space to be used as an armory will be several feet lower than any other part of the building.

At the east front of the basement floor will be four rooms, three of which will be used as storage for the national guard units and one as Red Cross headquarters. At the west end of the building will be the boiler room, scout headquarters and additional storage rooms. The stage will be located directly above the boiler rooms.

Most of the concrete work has been completed and steel for the pillars and other concrete forms is already on the site. Much steel is being used in the construction of the walls. Only the main construction of the walls and interior departments will be included on the work roster for several weeks to come, contractors said.

Outside decorations and minor details will come in on the finishing work schedule.

### NO MOTIVE SEEN IN SUICIDE CASE

Former Assistant Rector of  
New York Church Takes  
Own Life.

(By the Associated Press)

NEW YORK, Jan. 12.—The motive for the apparent suicide of Rev. Dr. Percy Gordon, former assistant rector of the St. Betheslem Episcopal church, whose body was found yesterday in a bathtub in his apartment in the Hotel Wolcott, remained undiscovered today. There was a bullet wound in his right temple and a revolver with one empty chamber lying beneath his right hand.

The contents of two letters written shortly before he shot himself, were not made public. One of the letters was addressed to Dr. Leighton Parks, rector of St. Betheslem and the other to Gordon's son, George, an under secretary of the American embassy in Paris.

Dr. Gordon, who was about sixty years old, resigned from St. Betheslem about six months ago, soon afterwards he sailed for Europe. Only a few of his close friends knew he had returned to America. They said he had seemed nervous and apparently was not benefited by the sea voyage.

Dr. Gordon was separated from his wife several years ago and she now lives in Florida. Born in Savannah, Ga., Dr. Gordon was graduated from the University of Virginia and for several years practiced law at Huntsville, Ala., later studying for the ministry.

His body was removed to undertaking parlors.

### Funds to Complete Federal Dam Voted in Appropriations

(By the Associated Press)

WASHINGTON, Jan. 12.—Funds for the completion of Dam No. 2 and the installation of eight power units—all that the war department considers will be needed for several years at Muscle Shoals—are provided for in the army appropriation bill sent today to the house.

The bill appropriates \$6,998,800 for work during the next year in addition the secretary of war to incur obligations on contracts to the amount of \$10,501,200.

### French General is Leader of Invasion Into Ruhr Valley

General Buat.

General Buat, acting military head of the French army, will have the responsibility of leading the troops assigned to invade the Ruhr district if such an invasion is ordered.

### SLAYER OF WIFE DIES OF WOUNDS

Statements of Wife Was to be  
Used in Trial on Murder  
Charges.

(By the Associated Press)

MIAMI, Fla., Jan. 12.—Edgar C. Frady, Chicago auto man waiting trial here on the charge of wife murder, died at a local hospital today. He had recently undergone two blood transfusions and his conditions had caused a postponement of his trial indefinitely.

The contention that his wife, Dorothy Thompson Frady, was shot during a struggle for possession of a pistol, was expected to be the defense in the trial of Edgar C. Frady, Chicago automobile dealer, under indictment for murder in connection with the killing of Mrs. Frady in a hotel at Miami Beach, last winter. Mrs. Frady, a sister of John R. Thompson, restaurant owner of Chicago, was shot February 26 and died March 2, after dictating a statement charging Frady with the shooting and declaring she had lived through torment immediately preceding the shooting.

Mrs. Frady came to Miami Beach about six weeks before the shooting and Mr. Frady arrived a month later. In her statement Mrs. Frady said she was induced to go to Mr. Frady's suite about midnight February 25, where he began abusing her, charging misconduct, which was continued until about eleven a. m. Sunday, when he threatened her with a pistol. They fought an hour for possession of the pistol, the statement said, when she became exhausted and the next she remembered was the report of the weapon.

Hotel employees discovered Mrs. Frady lying on the bed with a bullet in the spine, and Frady in the bathroom bleeding from slashes at the throat, inflicted with a safety razor blade and penknife, in an alleged attempt at suicide. Mrs. Frady died five days later and her husband temporarily recovered and was indicted.

It was during the hearing on application for bail that the statement of Mrs. Frady was attacked, it being contended by counsel that it could not be regarded as a "death bed" statement since Mrs. Frady at the time did not know she would succumb. Frady was released in \$50,000 bail in October and went to Chicago, where he entered a hospital and submitted to an operation. Frady sought his release on bail on the ground that he was suffering from a chronic ailment and that death would ensue if he remained in jail.

### KANSAS CITY GRAIN FIRM ORDERED TO CLOSE

KANSAS CITY, Jan. 12.—The firm of Diltz and Morgan, grain brokers, was ordered closed today by the Kansas City Grain Clearing house because of failure to furnish adequate margin. The firm operated branches at Wichita and Salina, Kan., Oklahoma City and Enid, Oklahoma, and Ft. Worth, Texas.

### WITNESSES SHOW FACTION FIGHTS IN PARISH TOWNS

Mer Rouge Mayor Declares  
Organization of Klan  
Created Breach.

#### KLANSMAN TESTIFIES

Break in Community Peace  
Hinged on Reforms of  
McKoin, Mayor Says.

(By the Associated Press)

BASTROP, La., Jan. 12.—Robert L. Dale, mayor of Mer Rouge, today named Dr. B. M. McKoin, Capt. J. K. Skipworth, Kelley Harp, and Ed Ivey as members of the Ku Klux Klan band, which held up and disarmed Watt Daniels, W. C. Andrews and Harry Neelis, Mer Rouge citizens, near the villa of Gallion, La., several months prior to the kidnapping and murder of Daniels and Thomas P. Richards last August.

Dade had admitted previously that he was a member of the klan band.

BASTROP, La., Jan. 12.—State attorneys digging into the Morhouse tragedy—the kidnapping and slaying of Watt Daniels and Thomas Richards—had before them today the testimony of nearly two score witnesses dealing with differences between the peoples of the two principal towns. Bastrop and Mer Rouge, dating back for years and starting, according to several, with the opening of a breach by the drawing of a line between factions favoring and opposing the Ku Klux Klan.

Robert Dade, mayor of Mer Rouge, told the investigators at yesterday's session of the hearing now in progress before Judge Fred L. Odom that "before the klan came, everybody in Mer Rouge were like brothers but now there is a strained feeling. In the growth of the klan there has arisen a condition in this parish that is intolerable."

Hugh Clark, a klansman, testified the klan is 400 strong.

Thus far history of the differences as placed in the records goes back several years and revolves largely around the administration of Dr. B. M. McKoin, as mayor of Mer Rouge.

The condition which existed in Morhouse parish started with the alleged reform measures of Dr. McKoin while mayor of Mer Rouge and was considered as being peaceful by the present Mer Rouge mayor, Mr. Dade.

On the heels of this reform measure came the organization of the klan, which resulted in conditions he termed "intolerable."

BASTROP, La., Jan. 12.—State attorneys announced early today that Capt. J. K. Skipworth, exalted cyclops of the Morhouse parish Ku Klux Klan, has requested a conference with Attorney General A. V. Cocco, and his assistants in connection with the hooded band atrocities in this parish.

Capt. Skipworth is said to have requested the conference in order to go into the fullest details of the operations of the Morhouse parish klan since its organization and at the same time to establish that the operations of the black hooded band was not under the supervision of the klan.

Assistant Attorney General Quion confirmed the report that Capt. Skipworth had made overtures to the attorney general's staff and said that the klansmen request would be granted. No date was fixed for the conference, it was said. It is probable it will be held immediately.

### Newton Suggests New Plan for Government Proposition on Bill

(By the Associated Press)

WASHINGTON, Jan. 12.—Representative Newton, republican of Missouri, who introduced the pending bill to return to its owners alien property in the hands of the government, suggested to the house commerce committee today that the properties be incorporated making it clear that congress express no opinion as to the validity of sales of patents to the chemical foundation, otherwise he said the impression would be that the transaction was approximate, and this would undoubtedly be a factor in any proceedings taken by the government in connection with the sale.

Will the higher tariff on material cause higher skirts?

## GIVING DAD A CHANCE

On the streets of Fort Worth a boy has roamed for several years. There is nothing out of the ordinary about his appearance and he is probably no better in his everyday conduct than the common run of boys brought up on the streets. In fact, it is reported that at times he has had trouble with the law. However, at Christmas just past the boy showed that underneath his ragged jacket there beat a heart of gold. For several years he had been slowly building up a savings account. It grew by nickles and dimes but finally the boy had \$64 to his credit. Then it was that he showed the stuff that is in him. His father was just completing a 14-year sentence in the Illinois penitentiary and in order to give him a chance to go straight until he could find a job and start life anew the boy sent him a check for \$63, retaining just one dollar in order to keep the account alive. If with a sacrifice of that magnitude on the part of his son the father does not reform he should be sent up for life.

Another chapter to this story was written a day or two ago when some one who had read the story of the boy's sacrifice called at the bank and added \$11 to the one remaining. This act should convince the boy that he has friends who are ready to stand behind him and give him new hope in the battle of life which he has begun with such a fine spirit.

And now it is proposed to use the swift current of the river Jordan to generate electricity for Palestine. It is suggested that a dam at the outlet of the sea of Galilee will enable the plant to create an almost unlimited amount of electricity for the use of the various towns in the Holy Land. This sounds a trifle out of the ordinary, thus utilizing modern inventions in the places known for centuries through Biblical association, but when the practical side is considered it can be readily seen that such a plant would have great bearing on making Palestine what it was in the early days of the Hebrew race, a land flowing with milk and honey. Under Turkish rule the little county went from bad to worse, but the magic touch of modern civilization may restore it to some of its former importance.

From all points in Oklahoma come reports of building activities. This is as it should be. Building is evidence of prosperity and of the confidence of the people in their communities. In this regard Ada is not lagging. While there are not so many buildings in process of erection as during the flush times, a good many thousands of dollars are being expended and this will increase as time passes. In fact, there has never been a time during the last 16 years in Ada but what some building was going on. There has never been a real boom, but times have never been so hard but what something was going on in the building line.

A newspaper man in an Oklahoma town told a few days ago of an attempt to get out a paper which would please every reader. To do this he conceived the idea of writing a story about the prominent men of the city, taking the articles to each one in question and offering to eliminate all objectionable features. The result was that when his paper came off, it has nothing but the name and date. Another editor joined in to say that he tried the same experiment and he even did not keep the name of his paper, as one reader wanted it changed. There is no lesson to draw from this, and we merely pass it on for the information there is in it.

Room at the top? Yes, there is room at the top of every business, trade or profession. Pull seldom lands a fellow at this coveted spot and still more seldom is such a one able to maintain his footing. It is the man who prepares himself for this roomy place and has the energy to climb to it in the face of all sorts of obstacles. The great trouble is that few have the courage to keep going until they make the landing.

If the Oklahoma legislature keeps up the good work it has started, it is likely to go down in history as an able body of men. Of course, we have to keep a lot of praises in the back ground, for some times these legislative bodies can do a lot of damage in a mighty few days.

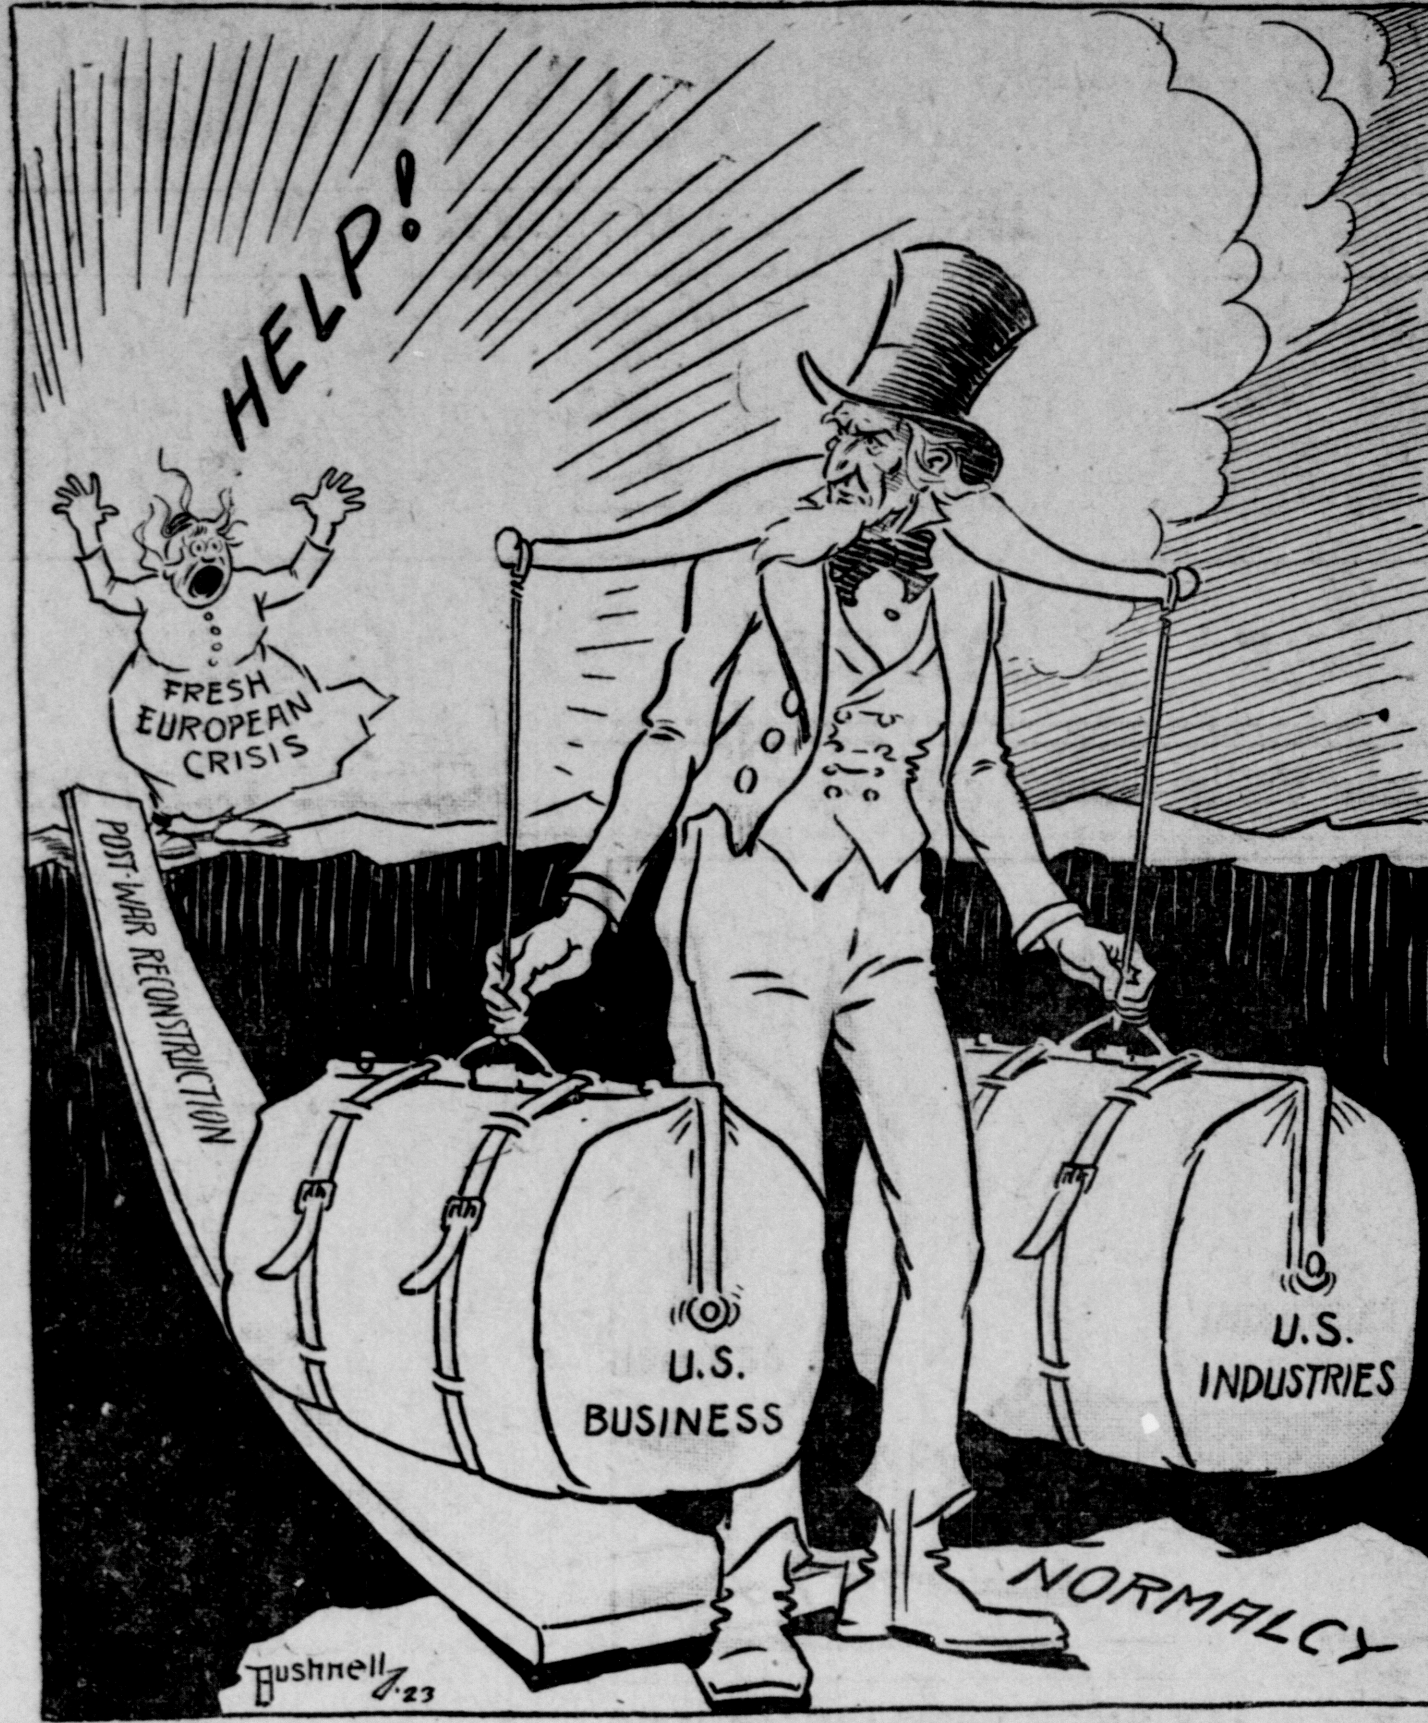

We ought to get back to the old theory that the least government is the best government. In other words, the government should do only what individuals cannot or will not do.

The French evidently think that saying it with flowers does not go with the Germans. Their action indicates that they are of the opinion that the Germans can understand it better when it is said with guns.

Many partnerships and co-operative movements fail because some member of the firm is willing to let the others do the work but insists on getting his slice of the profits. This soon gets old and the others stop hustling.

Don't envy the soft snap you think the other fellow has. The chances are that he is having more trouble than you are.

NO MORE 'N HE GETS BACK T' SOLID GROUND 'N SHE BEGINS T' HOWL AGAIN!

## The Forum of the Press

### Good Advice (Lawton Constitution)

Some good advice is contained in a letter from E. R. Waite, secretary of the Shawnee, Okla., board of commerce, that can be read and heeded by every business man in every town in Oklahoma. Read what Mr. Waite says:

In its civic life, Oklahoma holds out a broad, cordial welcome to those from less favored sections, who are seeking a new section in which to live.

In no section of the country is found a more thorough and cordial relationship existing between the people of the cities and those of the country. This feeling of common fellowship makes for healthy public thought of oneness of purpose, for the common good and is free from these elements of difference, discord and unrest with which some communities are unfortunately afflicted.

Oklahoma presents the attractive prospects of being the "Land of Opportunity" where land is yet to be had at moderate prices; the preeminently great opportunity where the man of moderate means may yield to the home-building impulse of the real American, with every assurance of success and happiness. There are unbounded opportunities for the settlement of those who may be seeking a new land where they may spend their days in peace and comfort.

Being so richly favored with oil that may bless and prosper human kind, our section keenly realizes that one of its greatest present and future needs, is more thrifty farmers in the building of a more prosperous and splendid country.

Let us all send greetings to those of other sections, and stand with outstretched hands and extend a cordial invitation and bid them a generous welcome to a country where all may shake hands and with united hearts and energies pledged to the common purpose of bringing our marvelous natural resources into life and adding them to our state's greatest storehouse of wealth.

### France Gets Our Meaning

(Ft. Worth Star Telegram)  
An Associated Press dispatch from Paris would indicate that the full significance of the decision to recall American troops from the Rhine is likely to be recognized by the French in due course.

The dispatch says:

"The army and people of France felt deep regret and depression over the order for the American forces to leave the Rhine. The fear was openly expressed that President Harding's decision would be construed by Germany and other nations as a rebuke to France upon the eve of her independent action in the Ruhr."

"Although Premier Poincare had not, up to a late hour tonight, received official confirmation of the decision, he accepted the news dispatches on the subject as authentic. M. Poincare was in the Senate when the first dispatches from Washington reached Paris. The messages were hurried to him and he immediately conveyed the information to a group of Senators, who discussed the matter among themselves."

"The Senators expressed considerable surprise at the news, professing refusal at first to believe that the United States would take such a step at this time in view of its possible effect on the opinion in Germany and other countries."

## WOLVERINE STATE'S CHAMP FARM BOY HAILED AS WIZ AT RAISING PRIZE STOCK

Andrew White with one of his prize winning Guernseys.

Up around Iron River, Mich., the natives are willing to wager anything from a keg of their oldest cider to the family plate that young Andrew White, just turned seventeen, is the champion farmer boy of this man's universe and all contiguous territory. His most recent triumph was the winning of a scholarship in the Michigan Agricultural college. His ambition is to become the owner of the best herd of pure bred Guernseys in the country.

Writing from Washington, Mr. David Lawrence says that the purpose of the Administration is to have its action "ring round the world as the protest of a disinterested nation against the mistaken theory of France that Germany must be penalized by force for her inability to pay her reparation debt."

So if the decision of the President is interpreted, as the French are said to fear, by "Germany and other nations as a rebuke to France upon the eve of her independent action in the Ruhr," that is precisely how the Administration desires that it should be interpreted. If France chooses to stand alone and to ignore the opinion of other nations in a matter of such gravity, she must be prepared to stand alone in very truth. The course she is adopting will not contribute anything toward a solution of the reparations problem. At best it will complicate the problem, and only the passive attitude of the Germans can prevent it from bringing on a state of war. Such a move can not be countenanced in the United States, no matter upon what pretext it is made.

## Russian Government Taking New Interest in Oil Production

(By the Associated Press)

LONDON.—The Russian Soviet Government in anticipation of increased activity in oil production, has placed a record order for drilling machinery with a British firm.

Ten complete outfits of the Rotary-Rex machine, especially designed for deep and rapid drilling, are to be delivered early in 1923 for use in the Baku fields.

The Government of Persia is making large amounts annually out of royalties from oil producing areas and this in addition to many other benefits resulting from the activities of foreign oil companies in Persia.

The royalties in 1921 amounted to \$2,750,000 on 2,327,221 tons of oil. The companies also spend about \$7,500,000 for material labor and food, and they give employment to 20,000 Persians.

## AUSTRALIA ASKS FOR IMMIGRANTS

Thousands Leave England for New World; Advantages Offered.

(By the Associated Press)

LONDON.—Australia, unlike America, wants immigration so much that she is paying the passage of thousands of them, and finding them jobs after they land. And the British government is so desirous of ridding England of her surplus unemployed labor that it is helping pay the way of those who leave to find new homes on the other side of the earth. In 1922 about 50,000 persons were sent from London to Australia, and in 1923 twice as many will go, emigration officers estimate.

Australia is very particular about the kind of people who go there to live. In the first place they must be of the white race, preferably British. Little encouragement is given Continental Europeans.

Few passenger ships sail to Australia from Continental ports, and the Italian, Greek, Armenian or what not who comes to London hoping to have part of his passage paid to Australia by the Commonwealth government finds that the ship is already filled with Britishers.

A Britisher of sound body, some sense and grit enough to tackle farm work need not have a cent in the world; all he must have is character, and John Bull will see to it that he gets to Australia and finds a job.

The Australian and British governments will pay most of the passage, and the Commonwealth will lend the immigrant enough to make up the difference and also sufficient change to provide food and shelter until the intended farm-hand gets his feet in the furrow and his hands on the plough.

The Commonwealth spends thousands of pounds every year seeing to it that the type of emigrant who

goes to Australia to live is vigorous and of good character. The weeding out process begins in London, where many hear the call to a new home over the seas with passage paid, but where few are chosen.

The greatest need is for farm and prospective farm owners. Almost as loud is the call for domestics, but it is not being answered, as servants are hard to get in England, and there are not enough of them to supply even the home demands. All of the Australian states are also desirous of having young boys, from 16 to 20, go there and grow up with the country.

## ITALY'S DEBT ON PAR WITH REPARATION CLAIM

(By the Associated Press)

ROME.—After Mussolini's proposal for a joint discussion of the Reparation question of the Inter-Allied Debts, the following figures showing the exact position of Italy in the question were made public.

On April 30, 1922, Italy owed five hundred million sterling to Great Britain, one billion six hundred and sixty million dollars to the United States and seven million dollars to Brazil, making a total of twenty-one and a half billions of life in gold.

Germany owes Italy as reparations thirteen billion gold marks, the equivalent of sixteen billion lire in gold.

A machine has been invented to extract the pulp from green bananas

## Blackheaded Pimples Quit With S. S. S.

Why? Pimple-Poison Goes When Red-Blood-Cells Increase! S. S. S. Builds These Red-Blood-Cells.

You can be sure of this, nature has no substitute for red-blood-cells. Pimple-poison can't live in the red rivers of your blood as long as there are enough rich red-blood-cells in it. More red-blood-cells!

The shame of a blemished face!

That is what you need when you see pimples staring at you in the mirror. Black-headed pimples are worse! Eczema is worse yet! You can try everything under the sun—you'll find only one answer, more cell-power in your blood! The tremendous results, produced by an increase in red-blood-cells is one of the A. B. C's of medical science. Red-cells mean clear-pure rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatism, impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1826, as one of the greatest blood-builders, blood-cleansers and system strengtheners ever produced. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

## Why not spend your Winter Vacation in California the land of no-winter

There are many famous resort hotels, cozy inns and pretty bungalows. Fine schools for the children, too.

You will find wonderful motor highways; golf links to test your mettle; bathing, fishing, the old Missions.

You will be charmed by the Southern California winter—a veritable summertime.

The journey is a pleasure.

Grand Canyon National Park is open all year 'round.

Fred Harvey meals all the way.

**HARDING CLEARS SLATE IN BOARD APPOINTMENTS**  
WASHINGTON, Jan. 12.—President Harding cleared the slate of important pending treasury appointments today by nominating D. R. Crissinger, of Marion, Ohio, now comptroller of the currency, to be governor of the federal reserve board; James G. McNary of Las Vegas, N. M., to succeed Mr. Crissinger as comptroller, and Milo D. Campbell of Cold Water, Mich., to be the "dirt farmer" on reserve board member.

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

## Farmers' Column

By Byron Russell

If past history of this country is an index to the future, the chances are against a large corn crop this year. For the past four years fair corn crops have been raised in Pontotoc county, something I have not seen here before, hence the probability of a short one this time. To make certain of a feed crop it appears that the farmers will be well to devote some acreage to other crops, such as kafir, milo, sudan grass, etc. However, it may be that another good season will come around again this year and make a good crop of everything.

According to government turkey raising in the United States has declined by 50 per cent during the past 20 years and the average price has doubled. The past three or four years in Pontotoc county have been very good ones for those who raised turkeys. The peak of high prices was reached in the fall and winter of 1921, but the prices of 1922 especially to those who sold at Thanksgiving were far from discouraging. The turkey crop was of material aid to the finances of the county last year.

It is time to make ready for the spring garden. Now is the time to get the soil in condition and fertilized. However, I shall have to put the soft pedal on this sort of talk, for I have a garden spot that needs spading up and my better half will insist that I put my suggestions into practice, if I go too strong.

Not long ago I dropped in at J. F. Weldon's place and took a look at his chickens and turkeys. The place was literally white with Wyandotte chickens and Holland turkeys. I don't know how many hundred there were in the lot, but there were enough to be worth quite a bit of money. With the success Mr. Weldon and others are making of pure bred stuff, the people of this section are getting a splendid object lesson in the advantages of raising only the best. The old idea that a chicken is a chicken has been exploded. For results there must be good blood in the flock.

## TOKIO MAYOR OUTLINES RECONSTRUCTION OF CITY

(By The Associated Press)  
TOKIO.—Viscount Goto, mayor of Tokio, has presented to Premier Kato a written statement covering in detail his plan of reconstructing Tokio at the estimated cost of eight hundred million yen in the hope of securing government subsidies. The mayor is credited by the press with the intention of resigning his portfolio in case his plan is rejected by the government. The political crisis concludes that his resignation, if realized, would start another political ripple that might vitally affect the fate of the existing ministry.

## MICHIGAN PLANING FREE TOW SERVICE FOR MATERIALS

(By The Associated Press)  
BUFFALO, Jan. 12.—A statewide free towing service for automobiles whose engines "go dead" or whose machines are damaged in collisions, is under consideration by the executive committee of the New York State Motor Federation. Several local clubs already have provided free towing service for their members within a limited radius and the committee has taken up the proposal to offer similar facilities to members of clubs affiliated with the federation in any part of the state that accidents may overtake them.

The largest broom corn market in the world is at Wichita, Kan.

## LOW BIRTH RATE ALARMS FRENCH

New Situations Following War  
Given as Cause for an  
Alarming Decrease.

(By the Associated Press)

PARIS.—The high cost of living, lack of apartments and homes for newly married couples, selfishness, too many women employed in industry, and too much pleasure, are the general causes assigned for the alarming decrease of the birth rate in France, now the lowest in Europe.

This is a condition that has been accentuated by the war, which took many men to the front, whence many never returned. The war also created new conditions of living for women, gave them work, made them independent, and disinclined to marry readily, and less inclined to have children.

This situation is set forth at length by the National Alliance for Increasing French population.

In comparison with a hundred years ago, each French marriage brings less than two children, instead of four children, whereas England's marriages bring nearly three children instead of nearly five a hundred years ago. In Germany in 1841, the average marriage brought 4.44 children as compared to 2.2 in 1921.

The birth decrease does not result from high mortality, or relatively few marriages. France's population of 39,000,000 in 1922 is practically that of 1900. The number of marriages for that year was 239,000, or about the average since then, with the years following the war showing a large number, which is now returning the average. For 1921 the number of marriages was 456,000 and for 1922 it was a little higher.

Until 1914 the number of births averaged 800,000 yearly. During several of the war years the number dropped to fewer than 400,000. The first six months of this year showed 386,726, as compared to 421,180 for the first six months of 1921.

It is argued that if France is to hold her place in the world and send emigrants to her colonies, she must pass laws as already proposed in Parliament, to give the voting majority to married men, reduce family taxes, and give bonuses for each child born. Already, families enjoy lower railway fares.

### VANOSS

Mrs. J. E. Sutherland spent the week with her daughter, Mrs. T. A. Thomas of Ada. She was accompanied home Monday by her little grandson, Tom Thomas, Jr.

Mr. Williams and family are moving this week to Wayne. We regret seeing them leave. They will certainly be missed.

Lester Williams who has been very ill with pneumonia is improving. He's able to sit up a little bit now.

On account of funds Vanoss schools stopped Friday. It was a surprise and a blow to the entire community. The Public speaking class gave a recital Friday night.

C. W. White and family are moving to Ada.

Many of the former students of Vanoss high are beginning school elsewhere, most them at Ada.

The public speaking class took the play, entitled, "Mrs. Briggs of the Poultry Yard" to Stratford Thursday night. A pretty good sized crowd was present. Other things that were in town for the evening made the crowd slimmer than it would have been, but it made enough to finish paying for the laboratory that was brought and probably enough over to buy a cabinet for it.

Bro. Coffee filled his regular appointment here Saturday night, Sunday and Sunday night.

Bro. Clarkson filled his regular appointment at Lightning Ridge.

The Seniors entertained the entire high school at the high school auditorium Saturday night. All expressed themselves as having a bully time and it seemed so by the racket that was made. Nice pop corn balls were served.

Clyde Griffith who has been away for several weeks is spending the week with parents and friends.

Miss Connie Clark spent Saturday night with Grace Bryce of Lightning Ridge, before leaving for her home in Ada Sunday.

Clint Sturdevant made a business trip to Ada Tuesday.

Miss Ethel Gaar made a business trip to Weleetka Saturday returning home Monday.

### TYROLA

Mr. and Mrs. O. L. Myers and Mr. and Mrs. Jessie Manley attended church at New Bethel Sunday night.

Misses Della and Ethel Myers and Noulla and Lena Manley spent the week end with homefolks.

Harold Duval visited his sister, Mrs. Dorsey Myers Sunday.

Mrs. Smith of Konawa and Mrs. Earl Myers were the guests of Mrs. O. L. Myers Friday afternoon.

Mr. and Mrs. J. E. Bailey made a business trip to Ada Friday.

Jesse Manley who has been suffering with a broken arm is improving.

Mr. Subblefield and family left Friday for their new home in Springfield, Missouri.

Mr. Loyd and family have moved to Belle.

O. L. Myers made a business trip to Ada Saturday.

Miss Lillian Smith spent Monday night with Misses Clara and Melba Myers.

The child labor law, which has affected approximately 250,000 boys and girls, has been declared by the United States supreme court to be unconstitutional.

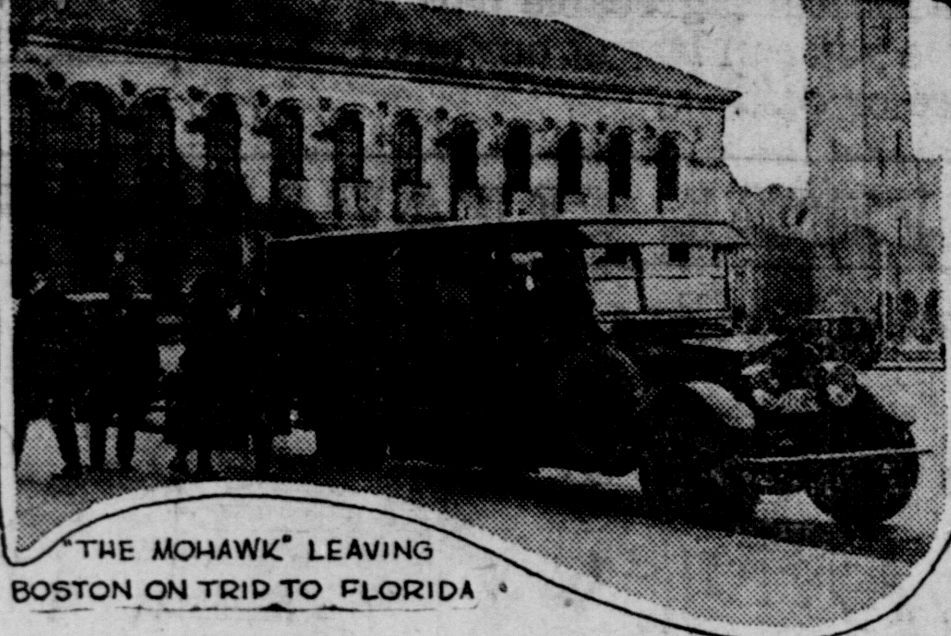

## LUXURIOUS MOTOR BUSES FOR LONG TRIPS ARE POPULAR WITH PATRONS OF TOURIST AGENCIES

WRITE BUS-  
IN  
TOURIST SERVICE

The tourist agency that books you for a trip around the world by rail and water has now completed the transportation trinity by installing luxurious motor bus equipment for the carrying of tourists over the many famous scenic highways of the country. The tourist agency of George E. Marsters, Inc., of Boston and New York inaugurated this mode of travel with much success last July by placing in service the touring limousine Mohawk. The coach was routed on regular runs over the Mohawk Trail, through the Adirondacks; to Montreal; through the White mountains and down the Shenandoah valley. These long distance bus tours deluxe met with instant favor and on the eighteen trips run from Boston to Montreal and over the Mohawk Trail there never was a vacant seat either on the outgoing or return trips. In six months the bus has covered more than 14,000 miles.

The success attending the initial bus tours conducted by Marsters led to the purchase of additional White Model 60 buses which will be used in greatly extending the company's motor bus touring program.

The Mohawk buses comfortably seat 19 passengers and have been pronounced by experts as the finest and most luxurious cars of their class in America. Early in December Marsters conducted a party of tourists in the Mohawk from Boston to Jacksonville and other Florida points. The

car will be operated between Jacksonville and Miami during the winter and on April 12 will leave Jacksonville with a party of tourists for the north. Next summer the tourist agency will have at least three touring limousines in operation and possibly more on regular schedules throughout New England.

## Many Interesting Facts Shown in Reports Taken From Volcano Inspection

(By the Associated Press)

WASHINGTON, Jan. 11.—How much volcanoes mean in the lives of all human beings, even though they have never been within sight or hearing of one, is told in a new volume just issued by the National Geographic Society. The publication is the first complete summary of the findings of six expeditions sent to the region of Mt. Katmai and the Valley of Ten Thousand Smokes in Alaska, by the Washington society, and of the results of several years' careful study of observations made by the expeditions.

The book, "The Valley of Ten Thousand Smokes," was written by Dr. Robert F. Griggs, of the Geographic Society, and contains a great fund of new information in this little developed field of science. Within recent years the fascination and romance of science have begun to capture popular imagination and this book adds a chapter to the wonder story of modern explorations and scientific study.

A tremendous volcanic upheaval that could blow from the top of a great mountain 40 times the amount of earth and rock dug out of the Panama Canal, leaving a hole large enough to contain all the buildings in 15 cities the size of New York, is worth studying. Such a cataclysm occurred when the top of Mt. Katmai was blown off in an eruption in 1912. Climatic effects circling the world resulted from the explosion, and the volume deals with these phenomena as well as those of the great seething steaming valley from which it derives its title.

In addition it describes the Allee-Wonderland phenomena in the wake of the eruption—such as a temporary gigantic river that cried along the top of a ridge; of streams that shifted their courses; ash showers that formed great thermal blankets to preserve deep snow drifts; and a flood that had a million times the destructive power of the Johnstown dam-burst.

### Exploration Adventuresome

An amusing instance of the careful checking up of facts is related by Dr. Griggs who tells how a skeptical chemist, after learning of the proposed name for the valley, set out methodically to count the columns of hissing steam, for fear the name was an exaggeration. He returned to camp to report soberly that the name had really been in error—the name, he said, should have been the Valley of a Million Smokes.

The volume is not a dry technical one, for thrills of personal adventure fill the pages. The explorer-author relates in matter of fact fashion how members of the parties would have plunged them to a parboiled death in the seething cauldrons of the valley, with the ever-present fear that a chance gust of wind might snuff out their lives with some gas that was more deadly, if less odorous, than those among which they advanced.

And yet, it is added, the region, now that it has been studied, would seem safer than a city street, for not a single member of the several parties was lost. Reports brought back so impressed the President of the United States that he immediately set it aside as a National Monument, some day to become a park comparable only by the Yellowstone, and like nothing else on earth for its amazing wonders.

The writer, after apologizing for his necessary use of superlatives, admits the fear that he, like Jim Bridger who heralded the Yellowstone's marvels, might be set down as a Munchausen until future generations should vindicate him. He adds:

"Many times also have I been thankful for the tools which modern invention has placed in our hands. With kodaks and half-tones and motion pictures to record our discoveries, our advantage over the old time explorer, who could supplement his accounts with nothing better than sketches, was enormous."

Many of Dr. Griggs' marvelous photographs are included to show the wonders of the region, and the text of the book forms a valuable contribution of the scientist's store of information about volcanoes and the many phenomena that accompany eruptions.

### UNION VALLEY

There was a large crowd at Sunday School and church Sunday and Sunday night.

The Scouts had a meeting last Friday night.

W. R. Riddle, Hansel and Lula Riddle went to Oklahoma City Friday to visit his daughter and stay for the inaugural celebration.

Jasper Turner has a crippled foot, caused by a nail.

Mr. Martin got the white chickens at drawing at Ada Saturday.

Leonard Dillard has been to Henryetta.

Mr. and Mrs. Jeter are the parents of a new baby girl.

Mr. Brandon and family have moved from Ahloso on the Browner place.

Mr. and Mrs. John Moore have moved where they used to live, just west of the school house.

Little J. C. Falter has been real sick.

Mr. and Mrs. A. Floyd visited school Friday afternoon.

Mr. and Mrs. Noah Tallent have moved from Byrd's Mill into the community.

Bro. Fox and family have moved nearer the school house.

Mr. and Mrs. I. T. Hoggatt and Mr. and Mrs. F. G. Mayfield spent Sunday with Mr. and Mrs. W. W. Jones.

Mr. and Mrs. Lem Killingsworth, spent Saturday night with her parents Mrs. J. H. Turner.

Mrs. Riddle spent Sunday at Mrs. Hatchers.

Mr. and Mrs. Leslie Hart of Stonewall, visited her parents, Mr. and Mrs. Dillard Sunday.

D. T. Bourn and family have moved where Jim Anderson lives.

Mr. and Mrs. Joe Hoggatt spent Sunday with Mr. and Mrs. Fox.

Miss Anna Thompson and sister of Ahloso visited Selma Wilson Sunday.

Marcia Durbin broke her collar bone while playing at school Monday.

A good bit of farming is being done this good weather.

## SHE REFUSED HIM

"I was engaged to the prettiest little doll in Indiana, but my stomach and liver trouble had made me so grouchy that she broke it off. I tried all kinds of medicines and doctors and got no relief. The gas blew me up like a porcupine and I had awful colic attacks. Finally I heard of May's Wonderful Remedy and is has certainly fixed me up fine. I am now as good as ever."

It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and druggists everywhere.

## AGENCY OPENED TO STOP CRIME

Cincinnati Community Opens  
Clinic to Reduce Causes  
for Criminality.

(By the Associated Press)

CINCINNATI, Ohio, Jan. 12.—The Cincinnati Central Psychiatric Clinic, said by physicians to be the first of its kind in the country to attempt to reduce criminality, will be opened here soon, it has been announced. The plan of the institution is to give the youths of the city the maximum opportunity for normal development through coordination with the courts, social agencies, the public schools, Board of Health, Vocational Bureaus, and other institutions in touch with deficient persons.

The Clinic will be under the superintendency of Dr. Emerson A. North, former Superintendent of the Longview Hospital for Insane, at Cincinnati.

The aim of the Clinic, according to Dr. North, will be to eliminate dependents by prescribing remedies to fit the individual. Before arriving at the remedial point, Dr. North said, the individual will first be given a general examination. Then it will be determined briefly if there are any mental deficiencies. The case will next be analyzed, first to ascertain the sociological conditions of the individual, secondly to ascertain completely his physical state. Following this, the individual's intellectual level will be determined, through the process of the Simon Dimet test, outlined to determine the intellectual capabilities and possibilities.

With these records, Dr. North continued, the case will be determined on finally by the head physician and remedies prescribed. There remedies, he said, would vary from institutional treatment, to social readjustment such as change in vocational fields or a change in home environment.

The Clinic is being financed by the Cincinnati Community Chest. Fifteen thousand dollars was advanced for the first six months with the understanding that \$30,000 be given for the year.

Words fail to express the magnificence of the romance; the thrill of

Admission — 10c and 25c

B. C. TROUTON, well-known Atlanta, Ga., manufacturer, who declares Tanlac restored him from an apparently hopeless state of health.

That permanent benefit comes from taking Tanlac is demonstrated in the case of B. C. Trouton, 426 Whitehall St., Atlanta, proprietor of the Trio Mattress Co. Six years ago Mr. Trouton publicly testified to the relief he obtained from Tanlac, and recently declared he is still hearty, again praising the medicine.

"It is remarkable how a few bottles of Tanlac ended my suffering," he said. "I had rheumatism so bad I could hardly work, and scarcely got any sleep. I lost weight, had no appetite and apparently was in a hopeless state. But since taking Tanlac I eat hearty, sleep soundly and feel like a new man. I wouldn't give Tanlac for all other medicines."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

JAPANESE TO OPEN NEW OPPORTUNITIES FOR OFFICERS

TOKIO.—In order to prepare military officers who might be discharged in consequence of the military reorganization, a special course of business lectures has been organized. The new institution will be opened January 11 and will continue for half a year. The students will be given lessons on commercial transaction, accounting, industrial possibilities, factory law, labor questions and other subjects essential for activity in business. The course is placed under Lieut-general Shirakawa and Major General Takemami.

Flashlight pistol has been invented to discourage burglars, but burglars in this town are singularly hopeful.

The Economy BAKING POWDER

BEST BY TEST

THE WORLD'S GREATEST BAKING POWDER

because it never varies in leavening strength—because it lasts longer—goes farther—keeps perfectly and is moderate in price—because it is most dependable, most economical.

Its sales are over 150% greater than that of any other brand.

No human hand ever touches it—it is made in the world's most sanitary baking powder factories.

## Why One Advertising Appropriation Was Increased

Two partners were debating their advertising policy—planning the campaign for the next six months.

Theirs is a retail store which spent in one year \$12,000 on its advertising which was 5% of their yearly volume, a fair expenditure in their line of business.

In growth of sales they could easily point out the homecoming of the \$12,000 which with a fair and reasonable profit in its train. For these two partners that expenditure was a profitable short-term investment.

One of the partners spoke up:

"John," he said, "we have a cash profit in the bank from that \$12,000, but we have a greater intangible profit by far—it is piled up for us in the minds of every man and woman in the city."

"It is reflected in the attitude of our bankers."

"It is present in the minds of the manufacturers who sell us."

"It is working on the minds and purses of every one of our customers."

"Why," he continued, "this business, because of the advertising we have done, is worth \$12,000 more than it was before we began."

The two partners increased their appropriation, modestly, it is true. That was five years ago. Today, for it is in a large city, their appropriation is eight times their original amount. Their standing, with bankers, manufacturers and customers s A-1. Their business has grown and grown in a healthy way. And still as one of them put it—

"In the last five years advertising has made money for us. Every cent we've spent has come back to us, and brought another with it. But, our real profit from that advertising is banked in the minds of the people. Ours is the best known business of its kind in town. And that is worth a lot of money to us."

## Parents Warned to Keep Children Off Motor Club Grounds

Parents living in West Ada, neighboring the Glenwood school, are warned to keep their children out of the auto camp ground properties.

Mayor W. H. Fisher said today that considerable damage had been done to the camp house by boys, who have formed the habit of loitering on the properties.

Boys who are found loitering about the camp grounds, which are located just south of the Glenwood school grounds, will be prosecuted, the mayor said. Complaints have been made to him by the officials of the Good Roads Motor club.

A resident of the Glenwood district has been given a special commission to arrest boys found damaging the property of the Good Roads Motor club, the mayor said. Parents should keep children away from the place if they are to keep them out of court, it was said.

## Coal Shipments to Northwest is Less Year's Report Say

(By the Associated Press)

SAULT STE. MARIE, Mich., Jan. 12.—Coal shipments to the northwest this year were more than 5,000,000 tons lower than during 1921, despite the fact that 4,536 more boats passed through the American and Canadian canals than in 1921, according to a report of officials in charge of operations.

Coal looked through here this year was 9,461,018 tons against 14,763,166 tons for 1921. Hard coal totaled 670,447 tons against 2,256,128 tons last season.

Total freight shipments were 17,808,004 tons higher than in 1921. Total freight traffic this year was 66,067,258 tons. Iron ore tonnage in 1922 was 42,227,338 tons, compared with 22,595,323 tons in 1921. A substantial increase in grains other than wheat also was recorded.

FAR EAST BAR ASSN. ELECT NEW OFFICERS

SHANGHAI.—Judge C. S. Lobinger of the United States Court for China became president emeritus and Mr. Stirling Fessenden, dean of the American bar in China became president of the American Far Eastern Bar association's annual meeting held in Shanghai in December. Other officers named were: Vice president south of the Yangtze, Roland S. Haskell; vice president north of the Yangtze, Theodore E. Simmans; vice president for the Philippines, Judge James Ross, and secretary, F. J. Schuhl, former U. S. Commissioner at Shanghai.

AFTER PRACTICAL BRITAIN TO EMPLOY NEW CREW

LONDON.—Graduating from offices, laundries, fashion salons and factories, 150 women, after 13 weeks training are shortly to enter domestic service.

This is being made possible by

a course of intensive tuition under the auspices of the Central Committee on Women's Training in an attempt to solve the servant problem. The training is undertaken at a few centers, and the women will start out on the new venture with a smart uniform made under the guidance of their instructress at the various centers.

DOINGS OF THE VAN LOONS—No, Father Isn't Getting Off So Easy After All.

BY F. LEIPZIGER

English Planning  
New Method Handle  
Maritime Troubles

(By the Associated Press)  
LONDON.—Since the sinking of the steamship Egypt last May, with the loss of over 100 lives, British shipping companies have been endeavoring to work out a system which would prevent confusion in the event of passengers having to take to the boats, and British lines are keenly interested in the experiments in this direction made by the French Messageries Maritimes Company.

As oil lamps do not give enough light during the confusion occasioned by a shipwreck, and as electric lights are apt to go out when the dynamos are flooded, it is planned to paint all safety arrangements with luminous paint of a new type which will resist climate and weather.

The latest regulations for safety at sea which are generally followed by the leading companies, provide that a passenger liner should have an emergency electric lighting set on the upper deck, where the water cannot get at it until the ship actually goes down.

MYSTERIOUS COAL  
SUPPLY LOCATED

Dark Town Inhabitants Get  
Winter Fuel Through  
Young Merchants.

The source of dark town's coal supply has been uncovered. Police last night made a raid of the "Darkie Coal Combine" and got the entire concern with the goods—five hundreds pounds of coal.

For some time local coal dealers and officials had tried to solve the source of the coal supply for the negro district of the city. Cold weather had no terrors for the negroes—and they always had plenty of coal.

Investigations had failed to reveal any trace of where the coal was secured.

Then a short time ago the Frisco railroad company made complaint that coal was missing from its cars in the local yards. The yards separate dark town from the white district in north Ada.

It was then decided that the negroes were receiving their coal via the pack route. Patrolmen were stationed in the yards and two night ago discovered several negroes removing coal from the cars. Efforts to apprehend them or learn their identity were futile.

Then last night the local police lay in wait. They did not have long to wait, for the coal deliverers worked early in the night to avoid the loss of sleep, perhaps.

When the arrests were made the police found that the "coal combine" was composed of five negro boys. Today they were in the custody of county officers and are to be given trial in juvenile court on charges of stealing. They admit for weeks they have been taking coal from the cars, according to the police.

No estimate can be made of the amount of coal lost. Police explained that the negro boys took the coal from the cars in sacks, distributed it among their customers and the money they received was clear profit.

Mam Street

—BY—  
V.L.E.

Only a few weeks have passed and a complete change in the scene of "Night Life in Ada" has been brought about.

All of a sudden jelly bean and flapper moved en masse across Mam Street and established themselves again in Bohemian bliss against the dull monotony of every day existence.

Here again the popular pastime is seeing, and being seen marks the trend of affairs in the blaze circles of youth.

Between the intermittent screech of a radio and the jazz of a victrola, exclusive gossip is hurled defiantly over the coca cola glasses with many casualties marked down ere the night is passed.

Girls do you know the subject for discussion when fellows group themselves around a soda fountain? It's you.

Some people believe that breach of promise proceedings should be filed against Bright Future.

What an ideal room-mate Andy Gump would make for he wears no man's collar.

Druggists report an increase in sales of Stacomb. They later learn that a dance is scheduled for tonight.

Speaking of the dance, insurance dealers report an increase in business, mostly from feminine applicants.

When asked if he thought that the fire station siren would interfere with the dance should a fire be reported tonight, Chief Jones "tows" as how it would make little difference since many could find jazz in it and dance to it just the same.

"Wait doctor," he said. "Before you take this thing out of my eye, let's have it understood that it's a piece of coal you hand it over to me."

It is reported that "Slim" Stokes has ordered a pair of bell-bottomed trousers lined with crepe-de-chine. Every day in every way, he is getting to be more and more of a jelly bean, friends say.

COLLEGE NOTES

Mr. Robinson, who is in charge of the education department and the training school, states that he is enlarging the primary work and can accommodate several more children, the only requirement being that they be six years old by June.

Mr. John Zimmerman reports that the debate and public speaking class, recently organized at the college, is now beginning work, with plans for the course fully laid. The enrollment of the class now is thirty-two, all of whom seem enthusiastic about the work. A feature of the class work is that the members stand before the class to recite or make talks of any kind. This is the class from which the college debaters will be selected later in the year.

Goben Gets Appointment.  
(By the Associated Press)  
OKLAHOMA CITY, Jan. 12.—E. M. Goben of Muskogee was appointed today by Governor J. C. Watson as oil and gas inspector for the state corporation commission.

LONG ROAD TRIP  
FOR ADA CAGERS

College Squad to Leave for  
Ten-Game Trip Over  
Oklahoma.

Ten games with two rest days faced the basketball squad that left today for Durant tonight at Durant and the second Saturday night at the same place. On returning home Sunday the men will enter a series of six games, ending the series in the second week at Alva.

This change in the schedule was affected between Alva and Ada Teachers colleges in order to better suit the schedules of the two schools. Instead of Tigers playing Rangers at Alva next Monday and Tuesday as originally announced, the Rangers will be at Ada on Monday and Tuesday of next week, college athletic officials announced today.

Ada Tigers will return from a two game series at Durant Sunday, play Alva Rangers here Monday and Tuesday, go to Oklahoma City Wednesday for a game with Goldbugs and from there will go to Tonkawa for games Thursday and Friday with the Tonkawa prep school. Chillico Indians comes next for a game Saturday and the team will end the road trip at Alva on Monday and Tuesday, January 22 and 23, after spending Sunday, January 21, on the road.

The change puts Tigers first home games up two weeks and local fans will see the squad in action against one of the state's strongest collegiate caging squads.

The remaining game on the out of town schedule will be played on February 2 at Shawnee with the Baptist Bisons. The ten games series which started today will be the longest continual playing period an East Central team has ever been confronted with.

McSWAIN GETS DEAN'S  
'UNDER TWO FLAGS'

Dynamic Universal Star Is at  
Her Best in Ouida's  
Masterpiece.

The dynamic personality of Priscilla Dean has never been given such forceful expression on the screen as in "Under Two Flags," the Universal-Jewel production of Ouida's famous novel, which comes to the McSwain theatre Monday. The spirited girl, Cigarette, idol of a French regiment at Algiers, is the type Miss Dean portrays so well.

The excitement with which the film abounds was felt by every member of the huge company at Universal City participating in the production of this classic of the screen. They all lived in the atmosphere of Algeria where the action of the story takes place.

A portion of the town of Algiers, with a faithful reproduction of the French barracks there, was built at the big studio. Members of the cast lived in character for several months. Miss Dean herself became so accustomed to the costumes of the play that it was difficult for her to readjust herself to habits of normal life when not actually working before the camera.

Several companies of French soldiers, properly uniformed and armed, were recruited by Tod Browning, the director, for use in various scenes. The harem of an Arab chief, was reproduced in all the splendor that is a savage potentate's. Every reel of the film teems with color and dramatic action.

Some of the best players of the screen were engaged to appear with Miss Dean in "Under Two Flags." James Kirkwood, John Davidson and Stuart Holmes, all noted actors, were selected for prominent parts. This Universal Jewel production is regarded as Miss Dean's supreme achievement on the screen.

The American Legion and Women's Auxiliary of Lakewood, N. J., is planning to buy a farm to be used as a convalescent home for wounded service men. It is said to be the first of its kind in the United States.

FOR CONSTIPATION

Black-Draught Recommended by  
an Arkansas Farmer Who Has  
Used It, When Needed,  
for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a tight and sluggish feeling after meals, for bad taste in the mouth and sour stomach.

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get Theford's, the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150

ARTISTIC TEMPERMENT

Did you ever hear anyone speak of an Artistic Temperament? Very probably you did, because everyone likes to talk about things they do not understand; and very few people understand the artistic temperament; that is, the real one.

Artistic temperaments are blamed for everything that goes wrong, and given as an excuse for everything that does not go right. It frequently happens that when people lose their things or fail to keep their appointments, or let themselves become pouty or cross, they are excused on account of their so-called artistic temperament which, as a matter of fact, is simply their ugly dispositions and careless habits. Instead of being excused they should be thoroughly scolded.

When you grow up you will realize the difference between a real artistic temperament and a fake one; and you will have no respect at all for the fakes—nobody has. But while you are young, just attend to your own things carefully and conscientiously do your practicing regularly and as your teacher directs take care of your books and other possessions, and be neat and orderly, and keep your engagements—including music lessons—promptly. Do not think that you will ever amount to anything if you allow yourself to be careless and queer and humor your fake artistic temperament.

COMMUNITY CHORUS MEETS  
TONIGHT AT CHRISTIAN CHURCH

Community Chorus singers are urged to be on hand tonight at 7:30 o'clock for a heavy rehearsal. Let everyone remember to bring their copy of the "Rose Maiden." More tenors and bass voices are needed and it is the hope of the chorus director that the men of the city will take time to play a little along with their work and make Friday night their play time. Think of it men! You will enjoy the association of your friends and neighbors in the hours spent in singing. There will be plenty of copies for 200 voices.

THE T. M. M. CLUB  
ENJOY OUTING

The T. M. M. club chaperoned by Miss Inez Morris hiked to the Boy Scout Lodge Wednesday. The day was spent taking kodak pictures, roasting wienies and roaming the woods. At noontime, a bountiful picnic lunch was spread. Those in the party were Misses Lucille Webster, Jessie Lee Woods, Audrey Whitwell, Gladys Morris, Lourice Core, and Miss Ruth Morris, as honor guest.

FAREWELL PARTY  
AT MRS. KIDDS

A very pleasant evening was spent with Mrs. R. Y. Kidd, 220 East 10 street Wednesday when the neighbors gathered to bid goodbye to Miss Minnie Cox and Sam Cox who are leaving for a visit in Kansas City, the guests of Mr. and Mrs. Paul Cox.

The time was spent in general conversation and music. Refreshments of hot chocolate and wafers were served.

MR. AND MRS. HARRY SCHIENBURG ENTERTAIN INFORMALLY

Mr. and Mrs. Harry Schienberg, 135 East Fifteenth street entertained with an informal dance Wednesday evening complimentary to Mr. and Mrs. Chris Thusen who left Friday for Iowa to make their home.

AN EVENING WITH  
MRS. A. A. ROBERTSON

Mrs. A. A. Robertson and daughter, Miss Mildred entertained at their home on East Fifteenth St. Wednesday evening.

The time was spent with music and in social games of "42" and Rook, after which delicious refreshments were served to the following guests:

Messrs. and Mesdames A. S. Foss, Jim Burris, S. M. Shaw Jr., J. H. Kirby, J. L. Huber, Mesdames Mary Smith, Jim Faunt Le Roy, Homer Woods, Mollie Settles, Messrs. J. E. Hale, John Smith, E. H. Driskill, Misses Daisy Hawkins, Plura Wood and Miss Grace Braden of Sulphur Springs, Texas, who is visiting in the Robertson home.

Athletics Asked  
for U. S. Schools

(By the Associated Press)

CHICAGO, Jan. 12.—Greater control of athletics by the faculties of colleges and the elimination of commercialism from intercollegiate athletics, was urged in a report made tonight by Dean Douglas Anderson of Tulane University, to the association of American Colleges, in session here. The report was made following a survey of a large number of leading colleges and universities.

"Among the leading abuse which the committee discovered were commercialism, excessive expenditure of money, scouting for athletes in preparatory schools, too much newspaper publicity, gambling and the undue emphasis on the part of the alumni and the general public of the relative importance of athletics," Dean Anderson stated.

"The first step in eliminating these abuses," declared Dean Anderson, "is to give the faculty control not only over the eligibility of players, entrance requirements and scholastic training but also over finances, schedules and the employment of coaches. Each coach would have the standing of a full professor, under the plan.

"The average expenditure of southern colleges for athletics is \$24,334, per year," the report said. "One institution last year spent \$109,797 for athletics. The great and ever increasing cost of conducting sports is one of the gravest phases of the problem. It exaggerates the relative importance of athletics. It should be the serious business of each institution to reduce these excessive costs. A suggestion has been made that gate receipts be eliminated and admission to games be made strictly a matter of invitation."

COMING!  
Priscilla Dean  
—IN—  
'Under Two Flags'  
Supporting cast: James Kirkwood, Stuart Holmes, John Davidson and Ethel Grey Terry. Story by OUIDA.

Corporal Louis ----- Fred Cavens  
7,000 horsemen ----- 3,000 Arabs ----- 4,200 soldiers  
The Famous Oriental Ballet  
Thousands of extra players, etc.

THE STORY

Victor, a derelict in Algiers, shakes dice with Cigarette, the Daughter of the Regiment, to determine whether he shall fight with France or with her enemies, the Arabs. Cigarette wins, and subsequently learns to love the quietly forceful Victor, who is a man of mystery. Princess d'Amague arrives from England at the height of the intrigue against the Chasseurs promoted by the Arab Sheik Ben Ali Hamed, and it is revealed that Victor is in reality a British nobleman. His favor with the Princess earns him the hatred of his colonel, who conspires to have him shot for treason. Cigarette, apparently accepting the advances of her enemy, the Sheik, learns of this and riding wildly with a stay of execution, arrives just at the crest of the Arab attack. What follows both in the way of stupendous action and beautiful love scenes helps to make this picture that will live forever in the memory of all who see it.
